Over the past several months, many stakeholders have been working to develop a Louisbourg visitor experience project for the waterfront and Main Street. With a focus on creating a social and economic gathering place for locals and visitors alike, it would include a new Parks Canada visitor arrival centre within the heart of the downtown.

### We'd like your input and feedback!

Cape Breton Partnership and Develop NS invites you to a **Community Open House** to review, discuss and gather your input and feedback. Choose to participate **in person** or **online** by **March 20th** to learn more about the ideas and concepts, and most importantly, offer your reflections on how well the plan addresses the needs of the community and capitalizes on opportunities.

### ATTENDING THE IN-PERSON EVENT? Please:

**1 Put on a mask** (required). We have extra if you need one!

**2 Sanitize** your hands.

Answer COVID-19 **screening questions** and enter **contact tracing information**. DO NOT enter if you have any symptoms or fulfill other potential exposure criteria. If so, contact 811.

Maintain **physical distance** and keep your seats a minimum of 2m (6 feet) apart at all times.
